

**Application for Combined Schools
Superintendent Confirmation Form**

The purpose of WGI's Combined Schools Policy is to encourage participation from scholastic groups that may have limited resources while keeping the integrity of the scholastic classes intact. Multiple groups within a school district may be approved to combine on a case-by-case review by WGI. In very rare cases, schools from different districts may be approved to combine. A group in any scholastic class may apply for approval to combine students from multiple schools within a school district under the following guidelines:

- Groups combining students from multiple schools within a school district may not have another group in the same division (Color Guard, Percussion, or Winds) participating locally with a Circuit Partner or with WGI.
- Only one (1) group (competitive or non-competitive) may be formed as a result of combining schools.
- Schools that have a marching band program are not eligible to combine with another school.
- Participation in the combined program must not be determined by any form of audition.
- Scholastic groups utilizing students from parochial, vocational, or charter schools must apply for approval under combined school guidelines.

Combined School Group Name: _____

School District: _____

Participating Schools in District:

Participating Schools from outside District (if any):

I affirm that the schools listed above are permitted by our school district to combine students and compete as one unit in WGI events.
